OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

SPARK Your Interest

This Episode focuses on the classroom structure and routines performed by teachers in class to provide a safe, friendly non-threatening, and caring environment. Effective classroom routines ensure order and discipline to help the students to stay calm and focused on their daily tasks.

TARGET Your Intended Learning

At the end of this Episode, I must be able to:

- Identify the classroom routines set by the teacher; and
- Observe how the students execute the various classroom routines

REVISIT the Learning Essentials

Routines are the backbone of daily classroom life. They facilitate teaching and learning routines don't just make the life of the teacher easier. They save valuable classroom time. Efficient routines make it easier for students to learn and achieve more.

Establishing routines early in the school year:

- Enables you to run your daily activities run smoothly;
- Ensure you to manage time effectively;
- Help you maintain order in the classroom;
- Makes you more focused in teaching because you spend less time in giving directions/instructions; and
- Enables you to explain to the learners what are expected to them.

OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

ANALYZE

Analyze the routines set by the Resource Teacher.

1. Were the routines effective in ensuring discipline and order in the class? Why? Why not?
Yes, the routines of Sir Kim were effective in ensuring discipline and order in the class. Although he could not always start with a prayer because of the schedule where he is the second subject of Grade 10, and the or every other class will usually pray only before the first subject starts so he is not advised to repeat it. Sir Kim consistently maintained structure by first checking the cleanliness of the room, reminding students to pick up trash if there's any, and he make sure that everyone was seated properly. His habit of checking assignments (if there's any), reviewing the past lesson, and then introducing the new topic helped keep students focused and prepared to learn. Sir Kim ends the class by thanking the students also reinforced respect and discipline. These routines created an orderly learning environment where students somehow knew what to expect and how to behave.

2. Which of those routines were systematic and consistently implemented? Explain your answer.

The routines that were systematic and consistently implemented were the checking of the classroom's cleanliness, reminding the students to sit properly, checking the assignments if there is, and giving a short review before starting the lesson. These were done in every session, which showed that Sir Kim followed an orderly process. His way of presenting the lesson sometimes using the projector, giving practice problems when necessary, and ending the class by thanking the students were also consistent. These routines became familiar for the students, making the class more organized and easier to manage.

Episode 6 Classroom Management and Classroom Routines

REFLECT

Reflect on the various routines observed.

1. Which of the routines will you most likely apply in your class? Why? Why not?

I will most likely apply all of Sir Kim's routines in my class because they are effective in keeping discipline, order, and focus during the lesson. In addition, I will also adapt the "Mini Trashbin" system of my previous teacher, Ma'am Consuelo, where every student creates a recyclable mini trashbin to place their own trash or any trash they see inside the classroom. This routine or somewhat a rule, not only prevents students from throwing garbage anywhere but also promotes creativity, discipline, and a sense of responsibility and care for the environment. Since the collected trash will be brought home, it also helps reduce waste in school.

Episode 6 Classroom Management and Classroom Routines

Activity 6.2

Listing Down Classroom Rules

Resource Teacher : **Sir Kim Paolo Armin A. Torcelino VI** Signature:  Date: **9/22/25**

Year and Section: **Grade 10-Naghihimagsik** Subject: **Science** Date: **9/22/25**

OBSERVE

Observe a class and list down the classroom rules formulated by the Resource Teacher. Cite the importance of these rules.

Classroom rules are imperative and must be reinforced for learners' safety and security. Rules also teach discipline and self-control. Rules eliminate stress and will provide a more pleasant, secure, and non-threatening environment. Rules ensure the students' engagement and focus in their classroom activities.

Classroom Rules	Importance
1.E.g. Read directions well.	-Ensures less error in answering the activity.
2. Avoid being late	Formed to address tardiness that interrupts lessons and reduces learning time.
3. Avoid swearing	Created to prevent disrespectful or offensive language that may harm relationships.
4. Wear complete uniform	It ensures discipline, equality, and easy identification of students.
5. Attend the flag ceremony	It reinforces patriotism and instills respect for national traditions.
6. Seat properly	It helps maintain order and discourages slouching or distractions during lessons.

Episode 6 Classroom Management and Classroom Routines

7. Listen attentively	It prevents misunderstandings and ensures students focus on the teacher.
8. Participate actively	It encourages engagement and prevents passivity in class activities.
9. Work quietly to not disturb others	It avoids unnecessary noise that distracts classmates.
10. Keep your things	Addresses loss or misplacement of personal belongings.
11. Maintain cleanliness	Responds to littering and promotes a neat, healthy classroom.
12. Do not skip as cleaners	It prevents unfair distribution of responsibilities among students.
13. Be cooperative	It ensures teamwork during group tasks and classroom activities.
14. Be responsible	It helps students own their actions and decisions.
15. Be respectful	Created to maintain harmony and avoid conflicts.
16. Be honest	It addresses issues like cheating, lying, or dishonesty in classwork.
17. Be kind and enjoy learning	It promotes a positive and motivating classroom atmosphere.
18. Lastly, follow the rules properly	It ensures consistency so all students comply fairly.

ANALYZE

1. Analyze each given rule. What circumstances led to the formation of the rule?

I believe that every classroom rule has its own purpose because it reflects the real situations that happen inside the class. In my observation, each rule was formed because of specific needs, like to keep the class clean, avoid distractions, or teach respect. Here is my analysis of each rule and the circumstances that I think led to its creation.

- Avoid being late → Formed to address tardiness that interrupts lessons and reduces learning time.
- Avoid swearing → Created to prevent disrespectful or offensive language that may harm relationships.
- Wear complete uniform → Ensures discipline, equality, and easy identification of students.
- Attend the flag ceremony → Reinforces patriotism and instills respect for national traditions.
- Sit properly → Helps maintain order and discourages slouching or distractions during lessons.
- Listen attentively → Prevents misunderstandings and ensures students focus on the teacher.
- Participate actively → Encourages engagement and prevents passivity in class activities.

- Be honest → Addresses issues like cheating, lying, or dishonesty in classwork.
- Be kind and enjoy learning → Promotes a positive and motivating classroom atmosphere.
- Follow the rules properly → Ensures consistency so all students comply fairly.

2. Are Classroom rules really important?

Yes, classroom rules are very important because they guide student behavior and maintain order in the classroom. They promote safety, discipline, and respect, which prevent conflicts and distractions. Classroom rules also create a structured system where every students must obey in order to have a peaceful classroom environment in which students can focus better on their lessons and to avoid distraction by any of misbahavior. Beyond academics, they also help build values such as honesty, cooperation, and responsibility, which are essential in real-life situations. Without classroom rules, the classroom would likely become disorganized, less productive, and more stressful for both teachers and students.

OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

REFLECT

Reflect on the various classroom rules set by the Resource Teacher. Will you have the same rules? If not, what rules are you going to employ? Explain your answer.

Yes, I would love to adapt all the classroom rules set by the Resource Teacher because they are very comprehensive and effective in shaping students' behavior. For me, the existing rules already promote punctuality, responsibility, cleanliness, respect, and honesty qualities that are important in maintaining an orderly classroom. These routines create a safe and structured learning environment where students know what is expected of them. However, I would also add a few more rules to strengthen classroom management. I will include a rule to be respectful when asking the teachers because the way students communicate with teachers reflects their attitude toward authority and learning, I will promote the use of polite words to help maintain professionalism and mutual respect, which also encourages students to carry these values beyond the classroom. Another rule that I will add, is to use gadgets only when allowed for learning purposes because since gadgets are common in classrooms, it can also be the sources of distraction. Making it clear to the students make this rule ensure that students know when gadgets should support learning, like research, using it to view simulations, or educational videos, and when they should be set aside to focus on discussions. Another is I will also require students to submit tasks and requirements on time to instill discipline and time management, to prevent delays that could disrupt the flow of lessons, and teach the importance of meeting deadlines. This skill for me, is very important because they will need it in their future careers. Lastly, I will add a rule to support and encourage their classmates positively because students sometimes compete with one another, which can create pressure or negativity, and promoting encouragement and support will help the classroom become somewhat a community where learners feel motivated, and inspired to do their best without fear of being judged. By combining Sir Kim's, rules with these additional ones, I believe that the classroom I dream to make in the future will not only maintain discipline and order but also plant an respect, responsibility, and kindness in every students hearts, making it not just a place for academic learning but also a training ground for character building and values that they will carry throughout their lives.

OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

SHOW Your Learning Artifacts

Take some snapshots of the classroom routines employed by the Resource Teacher which are worth emulating. Tell something about the pictures.

This picture shows the class routine of praying before starting the lesson. This photo was taken on the first class period of grade 10. For me, this routine is worth emulating because beginning the day with a prayer encourages students to be respectful, grateful, and focused, which foster a sense of encouragement before learning begins. It also set a warm atmosphere inside the classroom and teaches the importance of starting a class with a calm and prepared mindset.

This picture shows the students' shoes neatly placed and arranged in a designated area inside the classroom near the entrance. For me, this routine is worth emulating because it helps maintain cleanliness and order inside the classroom. By removing their shoes before entering, students reduce dust and dirt, creating a more comfortable and clean environment. It also teaches the students a sense of responsibility and discipline which promotes good hygiene and a healthier classroom.

OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

This picture was taken after some students have calmly raised their hands to voluntarily answer the problem solving questions after a simple activity was held. This photo shows that the students were eager to participate while maintaining proper classroom behavior. This routine is worth emulating because it promotes respect, order, and active participation in class. By waiting for their turn and responding peacefully when called, students show self-discipline and respect. It creates a harmonious learning environment where everyone is valued and respected.

The picture shows the teacher entertaining questions from a student to help clarify their lessons and answer their inquiries. While this may not be a formal classroom routine, it is a meaningful practice that happens naturally during class. This is worth emulating because it shows the teacher's willingness to guide and support students, making learning more interactive and encouraging.

Though I am not really sure if it is a classroom routine, but I include this because I think I will do the same if I will have a similar classroom someday. This picture shows the bags of the students neatly placed on the floor to create more space for writing and to allow them to sit comfortably on the monoblock chairs. This routine is worth emulating because it keeps the classroom organized and clutter-free, making it easier for students to focus on their tasks.
