OBSERVATIONS OF TEACHING -LEARNING IN ACTUAL SCHOOL ENVIRONMENT

Episode 7 Physical and Personal Aspects of Classroom Management

SPARK Your Interest

This episode tackles classroom management and discipline. It focuses on the personal and physical aspects of classroom management which are central to teaching and therefore must be consistently implemented.

TARGET Your Intended Learning

At the end of this Episode, I must be able to:

- Identify the two (2) aspects of classroom management; and
- Determine the classroom management strategies that the Resource Teacher employed in his/her class.

REVISIT the Learning Essentials

Classroom management refers to the wide variety of skills and techniques that teachers use to keep students organized, focused, attentive to tasks, and academically productive in class.

Ref: edglossary.org

Importance of Effective Classroom Management

- Increase the chance of student success
- Paves the way for the teacher to engage students in learning
- Increases instructional time
- Creates consistency in the employment of rules and regulations
- Aligns management strategies with his schoolwide standards.
- Decreases misbehavior in the classroom.
- Gives student boundaries as well as consequences.

Ref: <http://www.ehow.com>

Two Aspects of Classroom Management

- 1) Personal Classroom Management consists of managing yourself to ensure order and discipline in your class. It includes:
 - 1.1 Voice
 - 1.2 personal grooming

FIELD STUDY

OBSERVATIONS OF TEACHING -LEARNING IN ACTUAL SCHOOL ENVIRONMENT

Episode 7 Physical and Personal Aspects of Classroom Management

- 1.3 attendance
- 1.4 punctuality
- 1.5 personal graciousness

Managing yourself as a teacher contributes to the order and well-being of your class.

- 2. Physical Classroom Management consist of managing the learning environment. Attending to this, physical elements of the learning environment ensure the safety, security and order index class. It includes:
 - 2.1 ventilation
 - 2.2 lightning
 - 2.3 acoustics
 - 2.4 seating arrangement
 - 2.5 structure or design of the classroom
 - 2.6 basically, space or learning stations

Some effective Classroom Management.

- 1. Model to the students how to act in different situations.
- 2. Establish classroom guidelines.
- 3. Document the rules.
- 4. Refrain from punishing the entire class.
- 5. Encourage initiative from class.
- 6. Offer praise and rewards.
- 7. Use non-verbal communication.
- 8. Take time to celebrate group effort.
- 9. Let the students work in groups.
- 10. Interview students to assess their needs.
- 11. Address bad behavior quickly.
- 12. Consider pure teaching.
- 13. Continuously engage the students.
- 14. Assign open in the project.
- 15. Right group contracts.

OBSERVATIONS OF TEACHING -LEARNING IN ACTUAL SCHOOL ENVIRONMENT

Episode 7 Physical and Personal Aspects of Classroom Management

OBSERVE, ANALYZE,
~~REFLECT~~

Activity 7.1

Identifying Personal and Physical Aspects of Classroom Management

Resource Teacher : Sir Kim Paolo Armin A. Torcelino VI Signature: School: Abaño Laboratory
Year and Section: Grade 10-Naghihimagsik Subject: Sciences Date: 9/23/25

OBSERVE

Survey the class and interview the resource teacher. Ask how the personal and physical aspects of classroom ensure proper classroom management and discipline.

Check if these aspects were observed in the classroom.

Aspects of Classroom Management	YES	NO
1. Personal Classroom Management		
1.1 Is the teacher well-groomed that he/she demands respect from the learners?	√	
1.2 Is the teacher's voice modulated and can be heard by the entire class?	√	
1.3 Was the teacher present in class?	√	
1.4 Did the teacher arrive on time in class?	√	
1.5 Does the teacher exude a positive attitude towards teaching?	√	
2. Physical Classroom Management		
2.1 Is the classroom well-ventilated?	√	

Management

FIELD STUDY

OBSERVATIONS OF TEACHING -LEARNING IN ACTUAL SCHOOL ENVIRONMENT

Episode 7 Physical and Personal Aspects of Classroom Management

2.2 Is the lighting good enough?	√	
2.3 Is the classroom free from noise?	√	
2.4 Does the seating arrangement provide better interaction?	√	
2.5 Is the design/structure of the room inviting to classroom activities?	√	
2.6 Is the physical space/learning station clear from obstruction?	√	

ANALYZE

Analyze the different elements of personal or physical classroom management and answer the following questions.

1. How does the voice of the teacher affect classroom instruction?

Based on my observation, the resource teacher's voice really sets the mood of the whole class. Sir Kim has a clear and lively voice that keeps the students attention and makes the lesson more interesting. But, sometimes he can change his voice to a calm but firm tone that helps give instructions and reminders better without creating fear to the students. When he adjusts his voice, like being a bit louder to emphasize important points or softer to signal that it's time to listen, it is somehow sir Kim's strategy to guide the students and help them to stay focused.

2. How does the functionality of the teacher affect classroom discipline?

The way the resource teacher moves and acts inside the classroom plays a big role in maintaining discipline. I observed that when sir Kim is in active mode, he would walk around the classroom, and check on students, which makes them more aware of their behavior and focused on their task because they know that their teacher is observing them. He is the type of a teacher who gives clear instructions, and manages time well, it is very evident when he always reminds that class to submit their papers when they conduct short activities, he does it so that the allotted time will be met and it also gives the students a sense of duty that they must accomplish the given task on time.

3. Why do we need to check on the physical aspects of classroom management?

I think the physical setup of the classroom is very important because it affects the overall atmosphere of the classroom which directly affects the impressions of the students on the learning process that they will experience. A clean, well-arranged, and comfortable space will help the students focus better and feel safe. Simple things like proper seating arrangement, enough lighting, and good ventilation can also reduce distractions and create a positive and

warm atmosphere. Making sure that these physical aspects are present in the classroom because it supports both learning and good behavior.

REFLECT

Reflect on the aspects of personal and classroom management.

1. What does this statement mean to you as a future teacher? Explain.

“No amount of good instruction will come out without effective classroom management.”

For me, this statement means that no matter how well a lesson is planned or how good the teaching strategies are, they will not work if the classroom is not managed properly. If students are noisy, distracted, or not following routines, even the best instruction will fail because learning cannot happen in a chaotic environment. As a future teacher, I see classroom management as the foundation that allows teaching to flow smoothly, so in the future, I will try my best to handle my class and to also have an effective classroom management that will help the students to stay focused and engaged.

2. What are your plans for ensuring effective classroom management?

My plan is to start by setting clear rules and expectations with the students so they know what behavior is acceptable from them in the very beginning. I will build positive relationships to my students by showing respect and understanding, because students are more likely to follow rules when they feel valued, which I also experience first hand when I was in elementary and high school. In the future, I also plan to keep lessons engaging and interactive to avoid or just minimize the boredom of the students. I will make sure to use strategies like to praise my students and thank them when they participate, especially when they try to answer a given question. I will also use nonverbal signals, and consistent routines to guide their behavior and encourage them to always try to participate in the class. For me, by staying observant, calm, and fair, I can create a learning environment where everyone feels safe and motivated to learn everyday.

ANALYZE

Analyze the checklist you have accomplished and answer the given questions:

1. How many strategies were employed by the resource teacher? Did this contribute to better classroom management? Explain your answer.

During my observation, I only observed a few of the management strategies present on the given list, which include: establishing classroom guidelines, encouraging initiative from the class, offering praise and rewards, using nonverbal communication, addressing bad behavior quickly, considering peer teaching, and continuously engaging the students. As I observed the class, I think these strategies are very vital and contribute well to have a better classroom management because they create a positive and structured learning environment that motivate students to participate, and minimize disruptive behaviors. The class went to be productive and the resource teacher is able to maintain order and support effective learning because of these strategies.

2. What were not used by the resource teacher? Where is this important? What should have been used instead? Explain.

One strategy on the list of effective classroom management strategies that I wasn't able to observe is "Refrain from punishing the entire class." Although this and some other strategies are very important in maintaining a well peaceful classroom, I was not able to observe it simply because there was no situation that it happen during the day of my observation. During my observation the class is conducting a group experiment activity, where every student participated well and the lesson went smoothly, so the teacher did not encounter any misbehavior that would have called for disciplinary action. But, this strategy is still essential in some situations that requires it, like when only a few students might misbehave, because it ensures that innocent students are not unfairly affected.

SHOW Your Learning Artifacts

Show piece(s) of evidence of learning to capture the classroom management strategies used by the Resource Teacher.

This photo was taken after sir Kim, the Resource Teacher gave the intructions in their experiment. This shows sir Kim monitoring each group while the students conduct their science experiment. He moves around the classroom to observe their progress, ensuring that every group follows the procedure correctly and safely.

This picture was taken during the activity it shows the Resource Teacher answering student inquiries while they perform their experiment. He listens attentively and provides clear guidance, helping the group clarify procedures and understand the concepts behind the activity.
